

Dear Jim,

11/28/75

Thanks for your 11/24 and enclosures. I've read Vesco one only. I think I have some relevant proofs, whether or not I've mentioned them, and the way things are I'm waiting for a meaningful demonstration of serious interest, \$\$\$\$. Too much without just another story, too much unpaid work, too much to pay for. I have the serial numbers of the bills Dorothy Hunt had with her and the FBI didn't a) want them and b) do anything when forced on them.

This is hasty because I do try to take some care. I work and I stop and I rest other than I told Ferguson. I try to nap, too, because I can't sleep to daylight. Last night I was awakened by a talk show and once awakened, why not do it? But I'm not pushing for them. Response to mailing too good. Best yet. If you can't read the note on the Ferguson carbon it is that with the book in the mail only about a week I'm getting raves from those who have read everything. As I think I once told you, this is for me a specialized market. My customers want and are not deterred by literary liabilities. Even Whitten raved about the part he read (not the parts you've referred to!)

You are right on Belin but I was not in a position to see him when we debated. I have several times on TV. The eye is more of a give-away than you note from mine. The more it closes the more he is uptight. But you err in the logical deduction. He was bitter ending until he finished PM. He would not come out for the investigation during or after the debate. He has been trying to formulate a position for a long time. I suspect with and for GLII. What I did to him sank in and what he saw IN PM kept it in.

The situation is shifting rapidly. I don't recall when I said or what I meant by "the time to force reasonably full disclosure," I have been aware of the commonality of interests in keeping all under control but have been persuaded there is no longer the possibility. Or, all throats are open to those with throats. This becomes a real problem. Here the problem is those dead without living spokesmen.... My worry for two years has not been would this come apart but when and how, the how meaning without more whitewashing and covering-up.

Lights not relevant to Belin's tic. He had it face-to-face with subdued lighting.

Haven't had time to listen to my CBS special tapes. Please hold yours even if you decide you do not need them because I may have to give mine away.

You now know my view of the CBS specials to date. (I expect the others to be different, better.) I'm going to have to find some way of suing to exercise discovery to bring out what is behind this that is immune to official inquiry but not to civil suit. Too bad I have to rush so. Lil has the honcho as "ester" if you do not note!

The King developments, which can be interpreted as intended to provide an exemption under FOIA, "law enforcement," was enough for me to get Waldron turned on, ~~off~~ for him to activate national desk (Rick Smith), and for Smith to get an OK for me to work on the story. I've got substantial stuff for him. We expect him 9 a.m. Sunday. To encapsulate: Levi has appointed the guilty to investigate a) themselves and b) FBI. I've got the proof. Part in F-U. Part from my own investigation and official records.

I did appreciate your surprise call. Thanks. I've not told Eason of the new book yet and I've not let Zodiac tell its clients how to reach me. I'm trying to pace while functioning. Glad to be a young man of 60 again and not to be under wraps!

best,
